## Road works in Potten End

We have been asked to share the following information with you by the highways department at Hertfordshire County Council concerning road closures in Potten End:

*The Integrated Transport Projects team from the highways department at Hertfordshire county council are currently implementing repair works to the carriageway and footway along the common in Potten End. This is following completion of the recently constructed footway and crossing point near the four-arm junction of Gravel Path, Nettleden Rd and The common. The repair works will include raising the existing kerb heights on the footway at The Common to recommended 125mm, and re-constructing the footway to match the new kerb heights. This will span approximately 1km from the four arm junction up to Potten End Village.*

*Cadent Gas are also currently conducting emergency gas replacement works on the same section of road. Therefore to reduce impact on residents and motorists, there is currently a 24hr road closure in place for 5 weeks for both of these works to be completed quickly and safely. There is however a diversion route in place to divert traffic around the closure.*

*Follow this link ( [roadworks.org](http://roadworks.org) - Live and planned traffic disruptions ) for more information concerning the road closure and diversion route, by typing in 'The Common, Potten End' in the location search.*
