

WESTFIELD PRIMARY SCHOOL AND NURSERY

INTIMATE CARE POLICY

Date ratified: February 2024

Ratified by: Full Governing Body

Date to be reviewed: Feb 2025

Westfield Primary School and Nursery is committed to ensuring that all staff responsible for the intimate care of children will undertake their duties in a professional manner at all times. Westfield Primary School and Nursery recognises that there is a need to treat all children with respect when intimate care is given. No child should be attended to in a way that causes distress or pain.

Our approach to best practice

The management of all children with intimate care needs will be carefully planned. The child who requires intimate care is treated with respect at all times; the child's welfare and dignity is of paramount importance.

Staff who provide intimate care have been authorized to do so by the Head teacher or parents and are fully aware of best practice. Apparatus will be provided to assist with children who need special arrangements following assessment from physiotherapist/occupational therapist as required.

Staff will be supported to adapt their practice in relation to the needs of individual children taking into account developmental changes such as the onset of puberty and menstruation. Wherever possible staff who are involved in the intimate care of children/young people will not usually be involved with the delivery of sex education to the children/young people in their care as an additional safeguard to both staff and children/young people involved.

The child will be supported to achieve the highest level of autonomy that is possible given their age and abilities. Staff will encourage each child to do as much for him/herself as he/she can. This may mean, for example, giving the child responsibility for washing themselves. Individual intimate care plans will be drawn up for particular children as appropriate to suit the circumstances of the child.

Each child's right to privacy will be respected. Careful consideration will be given to each child's situation to determine how many carers might need to be present when a child is toileted. Where possible one child will be catered for by one adult unless there is a sound reason for having more adults present. If this is the case, the reasons should be clearly documented.

Wherever possible the same child will not be cared for by the same adult on a regular basis; ideally there will be a rota of carers known to the child who will take turns in providing care. This will ensure, as far as possible, that over-familiar relationships are discouraged from developing, whilst at the same time guarding against the care being carried out by a succession of completely different carers.

Intimate care arrangements will be discussed with parents/carers on a regular basis and recorded on the child's care plan. The needs and wishes of children and parents will be taken into account wherever possible within the constraints of staffing and equal opportunities legislation.

The Protection of Children

Education Child Protection Procedures and Inter-Agency Child Protection procedures will be adhered to.

All children will be taught personal safety skills carefully matched to their level of development and understanding.

If a member of staff has any concerns about physical changes in a child's presentation, e.g. marks, bruises, soreness etc. s/he will immediately report concerns to the appropriate manager/ designated person for child protection.

If a child becomes distressed or unhappy about being cared for by a particular member of staff, the matter will be looked into and outcomes recorded. Parents/carers will be contacted at the earliest opportunity as part of this process in order to reach a resolution. Staffing schedules will be altered until the issue(s) are resolved so that the child's needs remain paramount. Further advice will be taken from outside agencies if necessary.

If a child makes an allegation against a member of staff, all necessary procedures will be followed.

POLICY REVIEW

This policy will be reviewed as part of the school's policy cycle or following an agreed change to practice. This will be done by the Head Teacher in consultation with the staff and governors.
